WORK EXPERIENCE

Sales Associate Oct 2024 – Present
Kay Jewelers · Fort Wayne, IN

- Consulted with clients to select fine jewelry tailored to individual preferences and budgets, consistently meeting sales goals
- Maintained accurate customer databases to support seamless POS transactions, repair tracking, and secure recordkeeping

Software Engineer May 2021 – Oct 2024
Sparq · Fort Wayne, IN

- Aligned technical architecture with customer requirements, reducing rework and accelerating time-to-value
- Reduced post-launch defects through unit testing and code review discipline, improving release reliability
- Designed and implemented scalable, modular, API-centric architectures using C#, React, and AWS, streamlining development with Git and Azure DevOps CI/CD pipelines

Software Engineer May 2018 – May 2021
Ontario Systems · Muncie, IN

- Migrated legacy desktop app to modern web stack, improving accessibility and reducing page load time by 90%
- Increased developer productivity by automating environment setup with Docker, reducing setup time by over 93% (from 8 hours to 30 minutes)
- Built JavaScript applications in Agile sprints, balancing velocity with code quality and maintainability standards
- Mentored 12 junior engineers through legacy-to-web migration, reducing onboarding time by 40%

EDUCATION

Taylor University Graduated Jan 2018
Bachelor of Science in Computer Science
